SWAPNIL SINGH

SUMMARY

I am a passionate Full Stack Developer with a strong foundation in the MERN stack and I leverage the power of CSS libraries like Tailwind CSS and Chakra UI to create stunning, user-friendly interfaces. I believe that a seamless user experience is just as important as flawless functionality.
With a creative mindset and a knack for problem-solving, I've brought five projects to life, each showcasing the power and versatility of modern web development.

SKILLS

Tools

C · Javascript · HTML & CSS · ReactJS · Redux · NodeJs · ExpressJS · MongoDB · SQL · ChakraUi · TailwindCSS · DSA · DBMS · Express JS

EDUCATION

Bachelor of Engineering

SJB Institute of technology

2018 - 2022   Bangalore,IN

COURSES

Pesto Tech

MERN Full Stack Development Course

Rick and Morty

Project Description

- Step into the captivating world of Rick and Morty with our **MERN**-based project. Explore an extensive catalog of characters, each accompanied by comprehensive details. Our intuitive interface lets you filter characters by their status, whether **'Alive,' 'Dead,' or'Unknown'** Further refine your search by **gender and species**, making it effortless to find your favorite characters.
- What's more, we've elevated the user experience with stylish design, thanks to the elegant **Chakra UI** framework. It's your one-stop destination for unraveling the eccentric and unpredictable universe of **Rick and Morty**, all wrapped up in a visually stunning package.
